Professional Summary

A results-oriented web developer with one year of hands-on experience designing, developing, and deploying custom WordPress websites for a diverse client base. Proficient in front-end technologies and skilled in managing the full project lifecycle, from client consultation to final delivery. Currently enhancing technical expertise by pursuing a Master of Computer Applications (MCA) and building cross-platform mobile applications with Flutter.

Technical Skills

Web Technologies: WordPress (Expert), HTML5, CSS3, JavaScript, PHP, Responsive Design

Mobile Development: Flutter, Dart

Databases: MySQL

Tools & Platforms: Git, cPanel, Client Relationship Management (CRM), UI/UX Principles

APIs & Integrations: REST APIs, Third-Party API Integration (e.g., AI services, Payment Gateways)

Work Experience

Webx Technologies | Surat, Gujarat

WordPress Developer | Feb 2023 – Jan 2024

- Developed and launched **over 30 fully-responsive and customized WordPress websites** for clients across various industries, including e-commerce, corporate, and portfolio sites.
- Managed end-to-end client communication, from initial requirements gathering and scope definition to providing training and post-launch support, resulting in high client satisfaction and repeat business.
- Customized WordPress themes and plugins using PHP, CSS, and JavaScript to meet specific client functional and design requirements.
- Performed regular website maintenance, security audits, and performance optimization to ensure 99.9% uptime and fast loading speeds.

Projects

Flutter Mobile Applications

WallPix (Wallpaper App) | github.com/zaidkhan239/Wallpix

- Developed a cross-platform wallpaper application using Flutter, featuring a clean user interface and a vast library of high-resolution images.
- Key Feature: Integrated an **AI-powered image generation API** that allows users to create unique, custom wallpapers based on text prompts.

ZapCart (E-commerce Management App) | github.com/zaidkhan239/ZapCart

- Created a mobile dashboard for WordPress/WooCommerce site owners to manage orders, view sales analytics, and update product information on the go.
- Utilized the WordPress REST API to **securely sync data between the mobile app and the website in real-time**.
